### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

Claims 1-31 are pending in the present application.

### ***Response to Arguments***

Applicant's arguments filed August 17, 2001 have been fully considered but they are not persuasive. As addressed below, Brock et al. anticipated the claims.

A.) In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., synthesizing font table or automatically synthesizing a data table) are not recited in the rejected claim 29. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

B.) In response to applicant's arguments, the recitation automatically synthesizing data table in claim 16 has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

C.) Brock discloses the step of automatically synthesizing a data table when he discloses "the font descriptor is the table containing the data for all the output fonts. The algorithm in a pseudo-code form...blending fonts using the data structure. Next is a flag which specifies that the base font is nested (i.e. derived from still another font descriptor" (col. 11, lines 65-67; col. 12, lines 1-58; fig. 28-34). Synthesizing is the combining or making of parts or elements so as to form a whole and the combining of often diverse conceptions into a coherent whole. Therefore, Brock teaches synthesizing the data table when he discloses the blending of characters or glyphs or fonts in a pseudo-code form in figure 29. The flag indicates whether the font is available and if it is not available then the blending process take place to form a new font by the algorithm in a pseudo-code form.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2672

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. This maintains the rejection of the prior action which is hereby incorporated by reference.
3. Claims 1-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brock et al. (US patent no. 5,664,086).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
